

Remarks

Applicants request entry of the amendments to the specification and to the claims without prejudice, to place the application in conformance with US Patent practice and to facilitate prosecution of the present application. Support for the amendment to original Claim 2, when R2 is a bond, is supported by original Claim 31. The limitations to U can be found in original claim 32. Support for the amendment to Y is found in original claims 4, 5, and 6. The limitations to E and A are found in original Claims 14 and 16, as well as the Examples and preferred features on page 25+ of the specification. The limitations to R8 and are supported by original Claims 22 and 23. The limitations to R10 are supported by original Claim 18. The limitation to AL is supported by original Claim 9. Applicants submit that the proposed amendments are fully supported by the original application by the Examples, preferred features beginning on page 25, and the original claims.

Applicants respectfully request entry of the amendments and prompt favorable consideration.

Respectfully submitted,

/s/ MaCharri Vorndran-Jones
